

VAZGEN ISRAYELIAN

Solution Architect | Head of IT | Software Engineering Leader

Yerevan, Armenia | +374 99 180081 | vazgen@israyelian.info | israyelian.info

Professional Summary

During the past 13 years, I have worked on government information systems, enterprise software and commercial platforms. My career has gradually evolved from software development to team leadership, system architecture and technology management. I enjoy building practical software that solves real problems and turning complex requirements into reliable systems.

Core Competencies

Technology Leadership | Solution Architecture | Enterprise Software | Government Information Systems | Team Leadership | System Integration | Project Planning | REST APIs | Laravel/PHP | Database Design | AI-assisted Product Development
